Industry-preferred mobile surveillance solutions

Security, Safety & Control™

SEON

Industry-preferred mobile surveillance solutions from Seon

Public Safety

▶ Video surveillance

Full bus coverage – 4 cameras with audio bring clarity to onboard events with exceptional image quality and detail.

Track vehicle information

– optional on-board GPS technology provides system administrators with detailed vehicle location information.

Quick-search events

– an event button allows drivers to tag incidents for quick searches and investigation.

Incident Management

▶ Software solutions

Automated wireless downloading – receive and transmit data, monitor multiple vehicles, and receive notification of alarmed events.

Fleet-wide software

– manage your fleet with one software interface that delivers advanced management, investigation, and reporting tools.

Mapping/integrated vehicle tracking

– track the precise location and movement of a single bus or entire fleet with detailed mapping software.

Risk Reduction

▶ Data integrity

Health-Check – monitor DVR and hard drive status, ensuring all onboard system components are functioning.

Rugged and reliable – benefit from dependable video and data recording systems specifically designed to withstand tampering, vibration, temperature extremes, and other rigors of the road.

Archiving and storage

– securely copy recorded data to a central station for easy access and retrieval.

Operational Efficiency

▶ Return on investment

Administration – lower the administration requirements of managing onboard data recording systems through automation, including wireless downloading and integration with other onboard technologies.

Maintenance and fuel – protect your assets by ensuring all drivers maintain good driving practices and stay on designated routes; wirelessly receive information on vehicle speed and stops, turns, braking, idling, and location.

Insurance and liability – use recorded data to investigate student behavior, deter vandalism, address parental concern, assist with insurance issues, and train drivers.

Time and convenience – save time through the ability to wirelessly download video and audio clips, transmit data, monitor multiple vehicles, and automate the notification of alarmed events.

Why Seon?

The Clear Choice

▶ Mobile video surveillance and so much more. . .

Since 1999 Seon Design Inc. has created video surveillance solutions specifically for school bus applications. Our premium quality products and dedication to service has made Seon the partner of choice for school districts across North America. Our success has led independent research company IMS Research to name Seon as the world's #1 manufacturer for the bus and coach industries.^[1]

Seon's core strength lies in our ability to remain flexible and adapt to the individual needs of school bus fleets large and small. Our systems are dependable, user-friendly, tamper-proof and tough — capable of withstanding vibration, temperature extremes and all the rigors of mobile environments. Seon solutions are also cost-effective, offering outstanding value in the market today.

With our leading-edge customer service and responsive technical support team, Seon's dedication to customer satisfaction is unparalleled in the mobile surveillance industry. We stand behind our products, forging lasting relationships built on the sound investment that Seon clients enjoy year after year. Seon products are also designed, manufactured and serviced right here in North America.
