Trooper® TL4 front panel – actual size

# Value Without Compromise Trooper<sup>®</sup> TL

*This card represents the actual dimensions of the Trooper® TL  
(dimensions do not include the locking front cover, cable cover, or mounting plate)*

The feature-packed Trooper® TL series offers the best value in its class. It is the ideal video surveillance solution for school districts that demand value without compromise. Representing the next generation of a proven product, the TL offers safety, security and control in one compact, high-performance package.

## Value Without Compromise Trooper® TL

- Supports 2 or 4 cameras with audio
- Features H.264 compression to provide premium image quality
- Stores up to 500 GB for plenty of recording space
- Records up to 30 FPS per camera at 720 x 480 for high image detail
- Delivers Wi-Fi capability to manage video data remotely
- Provides a simple point-and-click graphical user-interface for ease of use
- Features a compact, integrated lock box design for simpler, quicker installation
- Offers one user-friendly software program for all Seon DVRs to reduce IT support
- Supports GPS and mapping software for vehicle tracking
